Questions Regarding RFP #14-101

1. Will the State be paying the Umpire fees/invoices directly or is it the contractor's/appraiser's responsibility to cover all fees of the Umpire and add those to the invoice for the professional services?

Please see Amendment No. 1. "Scope of Services shall include the following: Pay allocated umpire fees as associated with the appraised loss, which will be reimbursed by the State."

**It is your responsibility to routinely check the website for amendments or clarifications that may be issued. It is a requirement of each RFP that you include a signed amendment form with your response.*
